

"view ANY site, ANY time, ANY where"

Question: Are your cameras dumb? (ours are smart)

With BuilderzCam Video Analytic cameras you can:

1. **Save Time**
2. **Save Money**
3. **Replace your security guard service**
4. **DETER crime before it happens**
5. **Move BuilderzCam units to a new location at any time**
6. **Have less security related hassles**

- **The typical alarmed response takes too long.** Our Systems use visually verified alarm for a lightning fast response by law enforcement.
- **Security Guards are expensive!** Covering a site with security services requires from \$5,000 - \$8,000 and more per month. Even with our Mobile Surveillance Trailer using Video Analytics, off site 3rd party video monitoring and broadband cellular service we are far less expensive with an approximate monthly cost of \$1,500 with a lease to own.
- **Unlike Security Guards our video surveillance units never forget, never sleep and work 24 hours a day every day!**
- **We have a wide range of products to cover any size property from one acre to over one hundred acres.**
- **Video Analytics (intelligent thinking cameras) make our products work smart and much more effectively than 'dumb' cameras. No other mobile units use these!**
- **View your site or sites from anywhere at anytime!** This not only helps with your security needs but also with your site management and supervisor needs.
- **One of our clients has reported saving \$175,000 over the costs of security guards on just a single project!**
- **DETER Crime! Catch intruders the moment they enter your site before they steal not after!**
- **Stop Copper theft!**
- **Once you're done with the site our BuilderzCam units are ready for the next job.**
- **Warranty covers three years on parts and one year on labor.**
- **No internet connection is required!** Our units have their own cellular broadband router included.
- **HowTec Video Security Systems has been serving San Diego County since 2001.**
- **Call HowTec for a free site survey at 760-598-0200 or (888) 4-HOWTEC**

HowTec's BuilderzCam mobile surveillance products are available through purchase, lease or rental.
